SUMMARY

I am a Full-Stack Developer with experience building scalable web and mobile applications using React Native, Node.js, Express, and MongoDB. I am skilled in developing AI-powered solutions with Flask, FastAPI, and modern frontend frameworks. I am passionate about driving innovation in full-stack development and artificial intelligence.

EDUCATION

University of the Punjab **2020 – 2024**
BS Information Technology
MBBS Trust Model Higher Secondary School **2018 – 2020**
ICS

PROFESSIONAL EXPERIENCE

AI & Full-Stack Developer **Aug 2025 – Present**
Smart Math Learner **https://www.countfizz.com**
Built a full-stack math learning platform using the MERN stack for Grades 1–5 with interactive lessons per grade. Features include **visual learning, gamified quizzes,** storytelling with **voice-based** interactions for better engagement **and progress tracking**, all delivered through a modern, kid-friendly React interface**.**
AI Website Generator
Built a full-stack AI platform using the MERN stack that generates websites with dynamic layouts, AI-driven content, and section-based images powered by Gemini AI and the Pexels API, featuring credit-based usage tracking and a modern React UI.
Blockchain Web Developer | SabaSoft Games Studio **Jan 2025 – July**
Developed smart contracts in Rust & Anchor, integrated Web3.js with React frontend.
Designed backend APIs with Express.js for user and token data management.
Built MemeHome dApp enabling meme-token creation/trading.

KEY PROJECTS

Ride-Together Android App | ***React Native, Node.js, Express.js, MongoDB***
Developed a **real-time ride-sharing app** with booking & push notifications.
Built backend APIs with Express.js; integrated MongoDB for ride & user data.
Personal Developer Portfolio Website | React, Redux, Node.js, Express.js
Built a full-stack portfolio showcasing projects, blogs, and resume download.
Developed frontend with React, Redux, Tailwind & Framer Motion for a responsive, animated UI.
Implemented backend with Node.js & Express.js to handle contact form submissions via Nodemailer.
